2.0 mm pitch/Disconnectable IDC and Crimp style connectors

With the JST standard product KR connector as the core, according to using multi-harness insulation displacement connection by an automatic IDC machine, a holder for making a dual-row socket, a corresponding dual-row header, a header for wire-to-wire connection and so on, the high-density mounting of harnesses such as complicated shape is enabled.

- Multi-IDC-harnesses are possible
- Various types of connectors
- Cost reduction
- Two types of circuit layouts
